## Integrating parking management in SUMP

Patrick Auwerx, Mobiel 21, Coordinator

# Park4SUMP

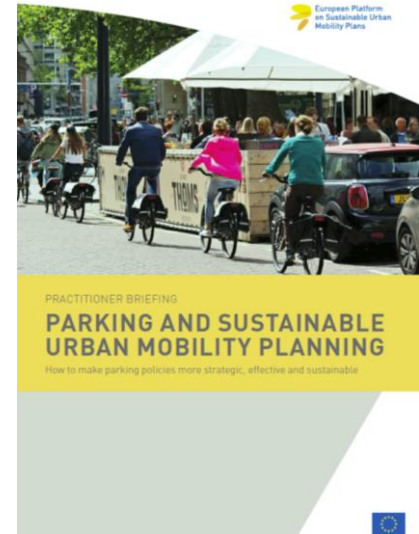

- Horizon 2020 Urban Mobility IA
- 22 partners : **16 cities**, 6 experts
- 4 years : ending 31/08/2022
- Main activities :
  - ✓ Awareness raising
  - ✓ Capacity building
  - ✓ Implementation
  - ✓ Innovation
  - ✓ Roll out and transferability

# Parking & SUMP

## Key objectives:

- Uplift Parking management from an operational task to a strategical one
- Use innovative parking management as a backbone of the SUMP
- ParkPAD : raise awareness and develop an action plan in a co-creation process by including all relevant players from the beginning

# Main Activities realised (project level)

- **22 national trainings** ( + cross project/ institutional cooperation)
- **ParkPAD** tested and ready for exploitation Autumn 2022 (BP)
- **CDE strategy** roll out : various activities at local, national & international level (CIVITAS, Eltis, EPA, Polis, ...) incl. materials (websites, video's, brochures, social media, ...)
- Working on high level '**policy recommendations**' with a focus on '**parking standards**' and '**EV charging and parking**' (workshops)
- Impact counterproductive national legislations
- COVID Impact assessment and contingency plan
- New SUMP 2.0 Topic Guide on Parking and SUMP integration (Sept 22)

# Targeted impact

## 16 Park4SUMP cities have:

- integrated parking management into their (future) SUMP
- **reclaimed 10 % public space** across city area (-2000 on-street parking)
- dedicated at least **10 % of parking revenue to sustainable mobility uses**
- **implemented 76 good practice parking management measures**

## >50 external follower cities

- will benefit from capacity building and exploitation of results to improve integration of parking & SUMP policies,
- implementing +300 measures

# Benefit from this Park4SUMP final conference

- Learn from our city experiences in 4 breakout-sessions.
- Apply to your own local SUMP context

“Sustainable parking can be a **game changer** for resilient cities” and thus with very high benefits to the EC Green Deal and Mobility strategy.”

# Thank you
